DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action, when taken together with the cancellation of the remaining rejected claim, is persuasive and, therefore, the finality of that action is withdrawn.
2. Claims 1-12 were pending at the time of the previous Office Action. Via the amendment filed December 20, 2006, claim 12 is cancelled. Therefore claims 1-11 remain pending and have been examined.

Allowable Subject Matter

3. Claims 1-11 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to teach the combination of features, found in independent claims 1 and 10, of displaying first and second outputs from independently operable output devices comprising a main processor and a secure module, for comparison for authentication purposes, in combination with the other claim limitations. Claims 2-9 and 11 are dependent on claims 1 and 10 respectively and are allowable on that basis.
